Summer Bridge for Pre-K

experience CURRICULUM

Improve Kindergarten Readiness with Play-Based Summer Learning

Help every child start Kindergarten confident, prepared, and ready to learn. Experience Preschool offers a turnkey summer solution to prepare incoming Kindergarten students for school success. Experience Preschool helps children build the foundational language, literacy, math and social-emotional skills needed for a strong start in Kindergarten.

Works seamlessly in 4–8week summer learning program

Experience Curriculum's summer solution is a flexible, easy-to-implement curriculum designed to support Kindergarten transition programs, summer bridge initiatives, and Pre-K readiness camps. Each thematic unit includes four weeks of high-quality instruction that intentionally develops the skills measured in many Kindergarten readiness assessments, including:

- Early language and vocabulary development
- Phonological awareness and foundational literacy
- Early math and problem-solving skills
- Social-emotional development, including self-regulation
- Fine and gross motor coordination

The summer before kindergarten is one of the most critical windows in a child's educational journey.

Increase Kindergarten Readiness Outcomes Experience Curriculum powered by brightwheel is designed to move the needle on measurable K-readiness benchmarks.

Aligned to State Standards and Kindergarten Expectations Experience Curriculum is mapped to state early learning standards and aligned with Kindergarten expectations, helping ensure continuity from Pre-K through Kindergarten.

Reduce Readiness Gaps Experience Preschool is designed to support diverse learners and help close readiness gaps prior to Kindergarten entry. With differentiated instruction and flexible learning supports, the program helps ensure every child enters Kindergarten ready to learn.

brightwheel

experience preschool™

Experience Preschool is a hands-on learning system inspiring growth in all developmental areas, including social-emotional, math, language and cognitive development.

Each monthly theme includes:

- 20 daily lessons with pre-packaged materials organized by the day
- 2 exclusive books with story pieces
- Focus on core concepts including-colors, shapes, letters, and numbers
- Daily math experiences with hands-on manipulatives
- Social & Emotional Learning integrated into daily experiences
- Embedded authentic assessment with progress monitoring tools
- Family engagement materials and resources
- Circle Time Materials
- Daily art and STEAM exploration

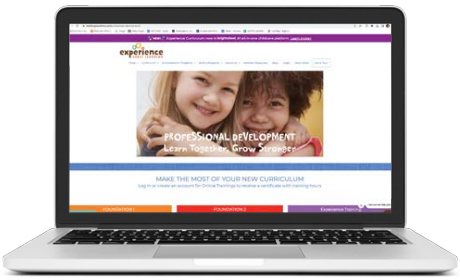
Why It Works

Strong Curriculum Fidelity Supports teachers who may not normally teach Pre-K. The curriculum is easy to implement. Every lesson arrives pre-packaged by the day with step-by-step instructions.

Grounded in Research The curriculum's structure ensures that every child receives consistent, evidence-based instruction.

Engaging, Play-Based Learning Children will be immersed in developmentally appropriate activities that support real academic progress.

Insights into Kindergarten Readiness
Experience Assessment provides educators with simple observational tools that track children's development across key readiness domains.



Free Curriculum Implementation Training

Our training platform offers free, on-demand implementation courses for Experience Preschool. During each training, educators will learn what's included in the kit, how to plan and prep for the week, how to implement into daily routine, how to assess, and how to engage families.
